

# 60TH ANNUAL **PURDUE UNDERGROUND CORROSION SHORT COURSE**

**AUGUST 31 - SEPTEMBER 2, 2021**  
**GRAND WAYNE CONVENTION CENTER**  
**120 W. JEFFERSON BLVD. FT. WAYNE IN 46802**

*corrosionshortcourse.com*

**PURDUE**  
UNIVERSITY®

Purdue Conferences

## WHO SHOULD ATTEND

Anyone interested in the causes of corrosion and its control should attend this course. Engineers, corrosion technicians, construction foremen, and maintenance foremen will find that this program fits their needs.

## SECTIONS AND OFFERINGS

### PRACTICAL APPLICATIONS OF CORROSION CONTROL

This course is designed for engineers, operators, field laborers, and supervisors that want a basic understanding of the concepts of corrosion. Basic fundamentals and hands-on training will be covered. A voluntary test will be offered at the conclusion of the course.

### BASIC SECTION

This section will provide a structured course designed to assist in the preparation for the Cathodic Protection Tester Certification test. A voluntary test will be offered at conclusion of the course.

### INTERMEDIATE SECTION

This section will discuss rectifiers, galvanic and impressed current anode systems, and both DC and AC interference. A voluntary test will be offered at the conclusion of the course.

### ADVANCED SECTION

This section will present advanced techniques, materials, and design. A voluntary test will be offered at conclusion of the course.

### COATINGS SECTION

This section will address Surface preparation and coating fundamentals, inspection techniques in the field and coating mills, knowledge of proper coating selection, and hands-on field application procedures.

### INTERNAL CORROSION SECTION

This section will have industry experts presenting the latest information on internal corrosion and internal corrosion control.

### PIPELINE INTEGRITY MANAGEMENT

This section covers advanced topics relating to integrity management. Topics change each year based on new industry trends, technologies, and interpretation of DOT rule-making from transmission and distribution viewpoints. This section is coordinated with "basic fundamentals of integrity management", so that similar classes of differing levels are offered at the same time.

### SPECIAL TOPICS

This section will address current issues and problems facing the industry, and will endeavor to find solutions.

## ADDITIONAL OFFERINGS

### RECTIFIER SCHOOL

Tuesday August 31 and Wednesday September 1, 8:30 am - 4:00 pm. in Calhoun Ballroom CD  
Corrosion technicians can learn about the fundamentals of troubleshooting, maintenance, and operation of rectifiers. In the class, students will be able to work physically with the equipment. There are only 30 seats so register today!

### HANDS-ON TRAINING OPPORTUNITY

Tuesday, August 31, from 11:00 am–2:00 pm in Calhoun Ballroom A.  
There will be multiple hands-on training stations including ultrasonic instrument and pit gauge measurements, line locating, setting current interrupters in rectifiers, and taking the basic bond measurement. Students will learn how to properly operate the equipment at each station.

### THE CORROSION ROUNDTABLE

On Tuesday, August 31, from 2:30 pm–4:00 pm in Calhoun Ballroom B.  
This is an excellent opportunity to compare corrosion practices and ask questions to the group.

### GENERAL SESSION

Wednesday, August 31st, 8:00-9:15 am in Anthony Wayne Ballroom B.

## PROFESSIONAL DEVELOPMENT HOURS

PDH are available for the sessions identified as such. PDH are a standardized, nationwide method of recognition for participation in approved, non-credit educational activities. Attendance at the entire session (Basic, Intermediate, Advanced, or Practical Application) is required for credit. Record keeping for your PDH requirements is your responsibility.

## PROGRAM AND REGISTRATION INFO

### FOR REGISTRATION INFORMATION, PLEASE CONTACT:

**AMANDA JOHNSON**, Lead Event Planner or a  
**REGISTRATION ASSISTANT** at [confreg@purdue.edu](mailto:confreg@purdue.edu) or  
866-515-0023  
[www.purdue.edu/conferences/corrosion](http://www.purdue.edu/conferences/corrosion)

### FOR COURSE CONTENT INFORMATION

**JOSH BREWER**, General Chairman,  
(989) 388-3051,  
[josh.brewer@isfieldservices.com](mailto:josh.brewer@isfieldservices.com)

Once you are registered, you will receive an electronic confirmation letter with parking information, links to maps, and other information.

# 60TH ANNUAL PURDUE UNDERGROUND CORROSION SHORT COURSE

## AUGUST 31 - SEPTEMBER 2, 2021

REGISTER ONLINE: [purdue.edu/conferences/corrosion](http://purdue.edu/conferences/corrosion)

### TUESDAY SCHEDULE

**TUESDAY, AUGUST 31ST** (Eastern Standard Time) All sessions in Grand Wayne Event Center Main Floor Lobby

8:30 am – 4:00 pm      **RECTIFIER SCHOOL** | Calhoun Ballroom CD

8:00 am – 4:00 pm      **REGISTRATION** | Grand Wayne Event Center Main Lobby Floor

Check-in registration and receive materials and more information about the courses

11:00 – 2:00 pm      **HANDS-ON** | Calhoun Ballroom A

This will be an open forum with multiple stations. Several knowledgeable industry professionals will be available to demonstrate, answer questions, and help students use equipment at each station.

The following stations will be available:

- Anode display (Impressed and Galvanic)
- Taking pipe-to-soil potentials
- Rectifier
- Current interrupter installation
- Bond test station
- Coating thickness profile
- Ultrasonic measurement testing
- Pit depth measurements
- Locating

2:30 – 4:00 pm      **ROUNDTABLE** | Calhoun Ballroom B

Roundtable discussion.

This is an open forum for students with any corrosion related question.

5:00 – 7:00 pm      **VENDOR SHOW** | Convention Hall A

The show will be held Tuesday 5:00-7:00 pm. Join a number of industry experts in a casual atmosphere to obtain the latest information on CP services and products.

### VENDOR SCHEDULE - TUESDAY AND WEDNESDAY

The show will be held Tuesday 5:00-7:00 pm and Wednesday 4:30-7:00 pm in Convention Hall A. Engage, connect and see the latest in innovation and services from over 40 exhibitors.

*Food and beverages will be provided by the exhibitors.*

# 60<sup>th</sup> Purdue Underground Corrosion Short Course Schedule - Wednesday, September 1<sup>st</sup>, 2021

Registration begins at 7:00 a.m. in the main lobby outside the Exhibit Hall | General Session is from 8:00-9:15 a.m. in Anthony Wayne Ballroom B

**Period 1**  
9:20 – 10:25

**Period 2**  
10:35 – 11:40

**Lunch**  
11:45 – 1:00

**Period 3**  
1:00 – 2:00

**Period 4**  
2:10 – 3:15

**Period 5**  
3:25 – 4:30

## The Swain Meter Co.

Multi Sized Clamps

Clamps Pictured

8" 12" 24" & 32"

Manufacturer of field portable, custom built, clamp-on DC Ammeters.

- ◆ Sizes range from 2" through 100" diameter
- ◆ Clips and Clamps are non-contact devices
- ◆ Measure DC current from 5mA to 200Amps
- ◆ One mA resolution in 2A range
- ◆ Cancels AC interference for accurate reads
- ◆ Shows direction and magnitude of current

Since 1965

*The Swain Meter Company*

Made in Michigan, USA

## FITZGERALD AWARD

The Fitzgerald Award is the highest honor a Purdue Underground Corrosion Short Course student can receive. It has been awarded to a deserving student since 2004. This award is not given out every year, as some years no student is able to meet the criteria.

John Fitzgerald III, the award's namesake, was a 1955 graduate of Yale University, professional engineer, NACE Corrosion Specialist, and was involved with corrosion work since 1959. John was a Air Force Veteran, NACE International Fellow, authored over 75 technical papers, and served as NACE International president from 1990 to 1991.

John passed away in 2018. At the short course he was a teacher, chairman, advisor, mentor, and for those of us lucky enough to have known him, he was a friend. His imprint on this course, this industry, and his colleagues, is nothing short of extraordinary. He is profoundly missed.

The 2020 winner was Adam Enyart.

## PIERCE AWARD

The Pierce Award is an honor presented to a committee member or an individual that contributes to and adds value to the Purdue Underground Corrosion Short Course. 2013 was its inaugural year.

## 60TH ANNUAL PLANNING COMMITTEE

### HANDS-ON SECTION

Luke Harris, Integrity Solutions Field Services

### BASIC SECTION

Steve Glover, CenterPoint Energy

### INTERMEDIATE SECTION

Patrick Elpers, CenterPoint Energy

### ADVANCED SECTION
